Bogdan Basisty, Junior Front end Developer

Details

Date of birth —————————————— **18.08.1998**

Employment History

Mobile Developer at Comarch, Lublin

July 2022 — April 2023

At work, I was involved in developing and improving the Comarch DMS product, focusing on problem-solving and enhancing the Android version, as well as stabilizing the iOS version. As part of this task, I used the C# programming language and the Xamarin platform, including Xamarin.Android and Xamarin.iOS, and utilized the MVVMCross framework.
